

Miraculous Benefit
RECEIVED FROM
Dr. Miles' New Heart Cure.

ELI P. BABCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Munsell Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as a result of army life, from sciatica which affected my heart in the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

REGULAR ARMY

Officer Writes of Conditions Troops Have to Contend With in Porto Rico.

SPANISH NEGOTIATORS

Likely to Be Recalled After Friday's Meeting Unless the United States Modifies Its Position as to the Philippines—Hopes for the Sympathy of Europe.

Washington, Nov. 2.—Some of the conditions existing in Porto Rico which the United States troops have to contend with are set out in the following letter from one of the most distinguished regular officers in the field there:

"I am glad the record does not show as yet any complaints from regulars. I certainly appreciate the enormous work you and others did in your department and wonder how you lived through it. I have seen no lack of food, but on the contrary great wastage. The trouble has been:

"1. Men not accustomed to eat the United States rations—so different from home food.

"2. The utter ignorance of cooks in preparing the food or cooking or saving the rations.

"3. The failure to cover over with dirt the excreta in all sinks or refuse from the kitchen.

"4. Men not taking care of themselves when they could, by self control over appetite or unnecessary exposure, etc.

"Sickness we expected from climatic causes, and were told when we came into it what to expect and we have got it, and some know now the result of tropical exposure. The climate is enervating in every way, and care has to be exercised. My breakfast is boiled milk and an egg and toast. Lunch, boiled rice and milk. Dinner, same with soup added. I have never touched my beef or fruit. Sometimes I take a potato or tomato, and for dessert stewed apricots. The above has been my diet for weeks, chiefly rice and milk, and if I vary from it I know it at once by diarrhoea, jaundice, etc. I keep out of the night air, but exercise on horseback regularly.

"All of my staff have gone home sick, and about four weeks ago the doctor gave me a certificate and said I should go. I was jaundiced and very weak. I got a 'brace on myself,' put on extra grit, as the boys say, and fought it out, and am now all right. I would not give up and come out on top. I had a work to do and proposed to stick, but the climate is not one in which you desire to play football. I hope the currency question will be settled soon, as the soldiers feel they are losing the value of their money not getting 2 to 1. These people are not the gentle, amiable people one is led to suppose. A curb bit, to be used when necessary, is not valueless. They are no fools in politics or business in any way. I am sorry the boys did not recollect the recruiting sergeant's warning to the recruit—after telling him of his pay, allowance, etc., that he was sorry to say that the 'Soldier would have to take his mince pie cold.'"

WILL BE STUBBORN.

Demands of American Peace Commissioners to Be Resisted by Spain.

Paris, Nov. 2.—The Spaniards said that they would make their answer known on Friday to the American commissioners' demand for the whole of the Philippines. But it is easy to foresee what it will be—a refusal, precise and formal. The Spanish plenipotentiaries, it is said, have made up their minds, in the event of the United States advertising to the Philippine proposition, to decline signing the act of peace, to break off the negotiations and to call on the civilized nations to witness the abuse

**LAUNCHING THE LIFE-BOAT.**

There are greater dangers than those of the angry sea, that deadly disease—cancer, which kills more men and women in a generation than the sea has swallowed up since the earliest history of navigation.

There is a safe and safe lifeboat ever ready to be launched for men and women who suffer from this merciless destroyer. It is Dr. Pierce's Golden Medical Discovery. It cures 98 per cent. of all cases of consumption, bronchitis, asthma, laryngitis, weak lungs, spitting of blood and throat and nasal troubles. It acts directly on the lungs, driving out all impurities and disease germs. It soothes and heals the mucous membranes of the lungs, bronchial tubes, throat and nasal cavities. It restores the lost appetite, makes digestion and assimilation perfect, invigorates the liver, and purifies and enriches the blood. It fills the blood with the life-giving elements of the food that build new and healthy tissues. It tears down, carries off and excretes the diseased and half dead tissues upon which the germs of consumption thrive. It checks the cough and facilitates expectoration until the lungs are thoroughly cleared. It is the great blood-maker and flesh-builder. Unlike cod liver oil, it does not build flabby flesh, but the firm, muscular tissues of health. It does not make corpulent people more corpulent. Thousands have testified to their cure under this great medicine after they were given up by the doctors, and all hope was gone. An honest dealer will not suggest some inferior substitute for the sake of a little extra selfish profit.

A man or woman who neglects constipation suffers from slow poisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. All medicine dealers sell them. No other pills are "just as good."

of force to which they will be subjected and the violation of the provisions set forth in the Washington protocol.

SPAIN WILL RESIST

American Demands and Recall Her Commissioners, Probably.

London, Nov. 2.—The Paris correspondent of The Daily Telegraph says: "The disagreement between the American and Spanish peace commissioners, which, under ordinary circumstances, might have caused alarm throughout Europe, is hardly noticed, owing to the Fashoda affair.

The Spaniards are in a position to know and assert that their government will resist the American demands and will offer the Philippines for a lump sum. If this proposal is not accepted Spain will recall her commissioners and let the Yankees do what they choose.

I am assured, however, that a rupture will be impossible. Spain will endeavor by arguments and appeals to gain whatever concessions are possible, but she will not risk a renewal of hostilities."

The Daily Chronicle says editorially this morning: "A war in which the justly vanquished nation receives a solatium of \$50,000,000 would be a novelty so great that it must be seen to be believed. In any case it would be madness for Spain to attempt to resume hostilities."

The Paris correspondent of The Times notices with pleasure the fact that important French newspapers advise Spain not to count upon European intervention, and that it is expedient for her to yield so as not to be exposed to the terrible consequences of a bombardment of the Spanish coasts.

Navigation Closed.

Upper Yukon and All Other Rivers Gone Into Winter Quarters.

Seattle, Wash., Nov. 2.—Navigation on the upper Yukon river, between Dawson and the lakes, has closed for the season and all river steamers have gone into winter quarters. Thirty Klondikers who left Dawson Oct. 10 on the steamer Flora have arrived here. They report that the Flora was the last boat to leave Dawson. The Yukon was filled with running ice and it would be impossible to make another trip.

Frank Sullivan of Mexico, Mo., reports a rich placer on Thistle creek, about 20 miles above Stewart river. A number of claims had been staked out. One man is reported to have taken out 69 ounces of gold in four days. It is about 35 feet to bed rock. There will be quite an exodus from Dawson as soon as the river is sufficiently frozen over.

Deputy Cabinet.

Decree Constituting It Is Signed by President Faure.

Paris, Nov. 2.—President Faure last evening signed the decree constituting the cabinet formed by M. Dupuy. M. Dupuy had a long conference with his colleagues yesterday afternoon and discussed all pending domestic and foreign questions. The ministers reached a complete accord regarding the past attitude of M. Delcasse, the foreign minister, toward the Fashoda question and as to the policy he proposed for the future. They approved also the taxation reform proposal of M. Peytral, minister of finance.

As regards the Dreyfus question, the cabinet bows to the decision of the court of cassation and will aid the work of justice.

On Wheels.

Postoffice Department Has Ordered an Innovation in the Mail Service.

Washington, Nov. 2.—The postoffice department has ordered an innovation in the postal service by the experimental establishment of a "postoffice on wheels" to operate in the vicinity of Westminster, Md. The service, which is to begin shortly, calls for the use of a postal wagon to travel over a designated route in rural districts. Mailboxes can be placed at some point on the route for every farmer living within a mile or two of the proposed route and mail will be collected therefrom. One important feature of the contemplated innovation, which, if successful, will be extended, is that it will have money order and registry mail facilities.

France Will Retire.

London, Nov. 2.—The Paris correspondent of The Daily Mail says: "France will retire from Fashoda unconditionally and without asking compensation. Baron De Courcel, whose term as French ambassador in London expired long ago, but who has held on to conduct negotiations affecting Egypt, will now be recalled and no haste will be shown to appoint his successor, with a view of making French resentment at British action, for England has almost taken the place of Germany as the object of French hatred."

Will Go to Canton to Vote.

Washington, Nov. 2.—President McKinley will go to Canton next week to cast his vote. All the members of the cabinet have likewise decided to go to their homes to vote unless something interferes to detain them here. The arrangements for the president's departure have not been made, but he probably will leave here next Monday afternoon by special train and return to Washington in time to take up his duties on Wednesday.

Decorated Graves of Maine's Dead.

Havana, Nov. 2.—The members of the various United States commissions and their staffs visited the Colon cemetery today and placed wreaths upon the graves where lie the remains of the Maine victims. A committee of young Cuban ladies sent five baskets of flowers to the Hotel Trocha to be used in the ceremony.

MINERAL

Resources of the Philippines Reported to the Government by Admiral Dewey.

THE VALUABLE DEPOSITS

Are Found in Only About a Score of the Several Hundred Islands—Coal Analogous to That of Japan—Many Different Kinds of Minerals, Among Which Is Gold, Are Found.

Washington, Nov. 2.—Admiral Dewey has forwarded to the navy department a memorandum on mineral resources of the Philippines prepared at the admiral's request by Professor George F. Becker of the United States geological survey. Professor Becker made considerable researches and consulted all the available authorities. Only about a score of the several hundred islands, he says, are known to contain deposits of valuable minerals. He includes a table showing the mineral bearing islands and their resources. This table follows:

Luzon—Coal, gold, copper, lead, iron, sulphur, marble, kaolin.
Cataanduanes, Sibuyan, Bohol and Panay—Gold only.
Mindanao—Lead and silver.
Mindoro—Coal, gold and copper.
Carranay, Batan, Rapu Rapu, Samar, Negros—Coal only.
Masbate—Coal and copper.
Romblon—Marble.
Samar—Coal and gold.
Panay—Coal, oil, gas, gold, copper, iron and perhaps mercury.
Biliran—Sulphur only.
Leyte—Coal, oil and perhaps mercury.
Cebu—Coal, oil, gas, gold, lead, silver and iron.
Mindanao—Coal, gold, copper and platinum.

Sulu Archipelago—Pearls.
Of the coal, Mr. Becker says that it is analogous to the Japanese coal and that of Washington, but not to that of the Welsh or Pennsylvania coals. It might better be characterized as a highly carbonized lignite, likely to contain much sulphur as iron pyrites, rendering them apt to spontaneous combustion and injurious to boilerplates. Nevertheless, he says, when pyrites seams are avoided and the lignite is properly handled it forms a valuable fuel, especially for local consumption.

Were Released.
Kitchen and Kane, Provost Guards, Who Shot Their Men.

Camp Hamilton, Ky., Nov. 2.—The general courtmartial in session here has worked for three days on the cases of Privates Kitchen and Kane, provost guards, who, while on duty, both killed their men. Private Kitchen of the Third Kentucky, the first for trial, shot and killed Private Nygran of Twelfth New York. The defense made but a slight fight, considering that Kitchen followed the line of duty.

In the case of Private Kane, One Hundred and Sixtieth Indiana, the same conditions surrounded the trial. Kane killed Private Floyd, Tenth Minnesota, and the prosecution made no fight. Both provost guards were released yesterday.

He Knew Her Queen.
Emperor William's Error in Recognizing the Wife of Mr. Straus.

Constantinople, Nov. 2.—It appears that Emperor William made a mistake at the reception which preceded the gala banquet given in his honor by the sultan at the palace last Friday. Evidently mistaking Mrs. Oscar Straus, wife of the United States minister to Turkey, for the wife of another diplomatist, the emperor said he knew her queen very well.

Mrs. Straus quickly replied: "I presume your majesty refers to Mrs. McKim."

Emperor William was evidently much entertained by his own error.

Didn't Strike.
Threatened Wage Reduction at Joliet, Ill., Did Not Take Place.

Joliet, Ill., Nov. 2.—The threatened strike of the galvanizers of the American Steel and Iron company, which involved 3,000 employees, is off. The reduction that was to take place yesterday has been averted. The men notified the company they would not accept, declaring that Governor Tanner's action in the mining districts, in using the state troops to keep out imported labor had set a precedent that would prevent the repetition, in Illinois, of the importation of labor, said to have been practiced at the company's Ohio and Indiana plants.

Hasn't Time to Visit America.
Berlin, Nov. 2.—The Constantinople correspondent of The Frankfurter Zeitung says that at last Friday's gala banquet, Mr. Straus, the American ambassador to Turkey, invited Emperor William to visit the United States.

The emperor replied that he would have long ago made the voyage, but that America was so great and offered so many interesting sights that he could not gratify his wish, as the journey would occupy too much time.

\$45,000 Fire.
Lapeer, Mich., Nov. 2.—Lapeer suffered the worst fire loss in its history yesterday by the burning of Robert King's shinglemill and lumberyard. Mr. King's loss will be about \$45,000, insured for about a quarter of its value.

To Relieve Schley.
Washington, Nov. 2.—Commander Snow, who is to relieve Admiral Schley as commandant of the San Juan naval station, sailed yesterday from Norfolk on the Solace for San Juan.

Defended the Marshal.

United States District Attorney Denies Indian Commissioner Jones' Charges

Washington, Nov. 2.—The attorney general has received from United States District Attorney Robert G. Evans at St. Paul, an answer to an inquiry in regard to the recent trouble with the Leech Lake Indians in that state, in which he warmly defends United States Marshal O'Connor and his deputies from the allegations recently made against them by Mr. Jones, the commissioner of Indian affairs, who alleged collusion between boardinghouse keepers and deputy marshals by reason of which large numbers of Indians were uselessly brought long distances as witnesses in liquor cases. Mr. Evans denies that the charges are well founded.

United States Marshal O'Connor also has made a report to the attorney general, in which he denies every allegation made and asks that the matter be promptly and fully investigated. In compliance with this request the attorney general and the secretary of the interior yesterday agreed to institute an investigation, and to that end each department will name an officer to conduct the inquiry.

Pepper.

Secures Control of the Distillery Through His Wife.

Lexington, Ky., Nov. 2.—Colonel James E. Pepper yesterday assumed full control of the old Pepper distillery, under the corporate name of James E. Pepper & Co.

Mrs. James E. Pepper, whose phenomenal success with her racing stable has been a source of much gratification to a host of friends, devoted the proceeds of the season and the recent sale of her horses to the purchase of the bonds held by the Harrisburg Trust company to secure money advanced in the reorganization of two years ago, and this puts Colonel Pepper again in full control of the property.

Kentucky Coal Diggers.

Strikers and Their Families at the Baskett Mines Are Starving.

Henderson, Ky., Nov. 2.—A delegation of the miners that have been out on a strike at the Baskett mines for two months, came to the city to seek relief by the law. They stated to County Attorney Taylor that over 50 miners and their families were on the verge of starvation. They live in houses owned by the Pittsburg Coal company, and it is related that the company refuses to let them go or give up their tools unless rents are paid. They have no food, much less money. The county attorney notified Superintendent Blair of the mines to meet him here.

The Public Debt.

Increase For October Was \$43,480,717—The New Bonds.

Washington, Nov. 2.—The treasury statement of the public debt shows that at the close of business Oct. 31, 1898, the debt, less net cash in the treasury, amounted to \$1,110,966,922, an increase for the month of \$43,487,717. This increase is accounted for by the issue during the month of about \$36,680,000 of the new 3 per cent bonds and a decrease of about \$7,235,000 in the cash on hand. The entire amount of the new loan, so far taken up in the monthly statement is \$179,399,180.

Receipts and Expenditures.

Washington, Nov. 2.—The monthly statement of the government receipts and expenditures show that the receipts for the month of October amounted to \$39,630,051 and the disbursements \$53,982,276. The receipts from customs amounted to \$15,555,234 against \$9,713,494 for October, 1897. Internal revenue, \$22,356,511, against \$18,614,872 for October last year. Miscellaneous, \$1,718,305, against \$1,063,047 one year ago.

Senator Hoar.

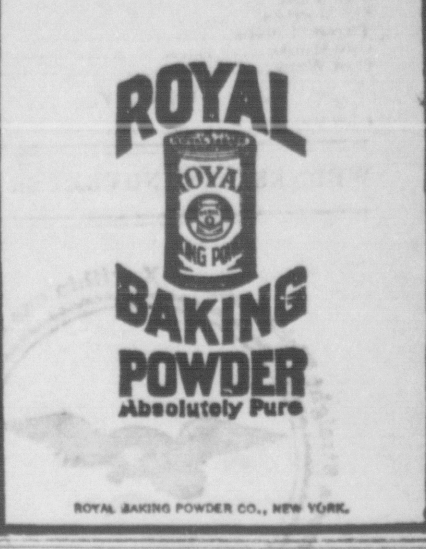

Worcester, Mass., Nov. 2.—Senator Hoar in a speech last evening referring to Porto Rico and the Philippines, expressed his opposition to them becoming a part of the United States by conquest. He said the only way in which they could become an integral part of this government was by treaty with the people to be governed.

Found His Mother Burned to Death.

Elizabeth, Ky., Nov. 2.—Mrs. Mary Shiplett, aged 53, a widow who resided near here with her son, Brooks Shiplett, was burned to death. Brooks returned home and found the charred remains of his mother in front of an open fireplace, where it is supposed she fell in a fit and ignited her clothing by the fire.

Shot Nine Men.
Beaver Dam, Wis., Nov. 2.—Adam Hammer of this city became suddenly insane yesterday and, securing a gun, wounded nine men and was finally shot himself to prevent his doing further injury. None seriously wounded.

Planingmill Destroyed by Fire.
Seymour, Ind., Nov. 2.—The planingmill owned and managed by Humes Bros. burned yesterday. The origin of the fire is unknown. The mill and office were destroyed. Loss about \$5,000; no insurance.

HAS MADE HIS REPORT.

Receipts of Attorney General Ketcham's Office Were \$30,251.74
Indianapolis, Nov. 2.—Attorney General Ketcham has filed his report with the governor. It shows the receipts of the office to be \$30,251.74 for the past two years, all of which has been paid into the treasury. Referring to the anti-trust law passed by the last legislature, he says it is not "sufficiently comprehensive to be of any material assistance in remedying the evils that are universally believed to exist." Of the Vandall case he says the experts have reached the year 1865 in their examination of the Vandall books and he believes the work shows a fair prospect of success in recovering for the school fund a very large sum of money. He thinks the books of mayors' offices and offices of justices of the peace should be

John Darment is playing for sympathy, but after drawing a good salary from the county for twelve years and standing in with the ring to thwart the will and interest of the taxpayers his sympathy racket will avail him nothing.

Nothing has troubled John Burrell more than the protests of the people, whose will in the matter of constructing the new gravel road contracted for has been disregarded. He thought he could fool the people in this matter, but not so. Everybody knows that by the postponement of the building of these roads Burrell and his crowd expected to be benefited. But the people see through the scheme and do not appreciate it. Neither do they appreciate traveling mud roads another year because John Burrell says so.

The citizens' ticket was made by the people without regard to party. It was made in absolute good faith. The republicans must see to it that no room is given or a charge of bad faith against them at the polls. All of the leading and very best republicans of the county are loyally giving it support. It will be elected. Vote the entire citizens' ticket.

The auditor's books show that there are several thousand dollars now due the county which it is the auditor's duty to collect. It is probably as much as \$10,000 at this time, and will be much larger before Mr. Durment's term is ended, unless he gets out and does some collecting. Warrants on the county treasury should not be issued to pay debts that do not properly belong to the county.

The democrats were given the candidate for representative on the citizens' ticket. This was right. We had nothing to give up in that respect. The republican state committee and legislative committee have arranged to elect a United States senator without Jackson county. They don't expect a republican representative from here. The democrats being in the majority are entitled here to this, the only political office on the ticket. Don't let tricksters appeal to your partisan prejudice on this score. We have no party candidate for representative. Vote for James Marsh for representative and the whole of the citizens' ticket.

The old Burrell machine is screaming at the joints and about ready to collapse. John Burrell is out trading everything and everybody for votes for himself. The cry is made that Durment is unpopular and he is thrown overboard and will be accused of bringing on his own defeat by his own lack of popularity. Durment knows this fact and is begging like an Arab for votes. Oscar Brooke is making a pitiful appeal, and Dave Clark is trying to cut loose and save himself. Every man admits the defeat of every one else except himself and it has become an indiscriminate rout. It is well that they should all be defeated. They entered into a common scheme to throttle the voice of the people in the primary and the people now arise in their might and assume control of their own affairs and dismiss these arrogant and despotic servants.

The Best Plaster.

A piece of flannel dampened with Chamberlain's Pain Balm and bound on to the affected parts is superior to any plaster. Sure Sign of Croup.

Hoarseness in a child that is subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy on hand and find that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. For sale by C. W. Milhous.

MEDORA.

Warren Wright and family drove to Seymour Tuesday to do shopping.

The corn crop in White river bottom in Carr township is being cribbed by as full force as can be marshaled. The corn is found to be much damaged by rain and the crop will fall short from the general expectation.

The youngest child of Mr. and Mrs. John Sutton died Sunday night after several days lingering with pneumonia fever. It was buried at the Wray cemetery Monday evening. The bereaved parents have the sympathy of this community.

Medora school has several scholars from the surrounding country. It is very evident that the farmer of the present age is experiencing some prosperity when he can spare his son from the fall work and at the same time equip him with such a good outfit for attending school regularly.

Last week the Banner warned the people to look out for false reports. The fusionist say to the people, so vote that the people may be permitted to look in the books for "false reports."

While our so-called "loyal" republicans as well as the ring democrats are quietly claiming that the fusion movement is in favor of Seymour on the county seat question while out on the street the same men deny that the court house question while out on the street the same men deny that the court house question has anything to do with it.

We have one republican in this town that does not want to be asked to vote the fusion ticket, in fact he winds in and winds out and leaves the fusion still in doubt whether the man that made the track was going in or coming back, however the "loyal" republicans and ring democrats seem to understand this man's tracks and the fusionists with one voice join in saying, "so mote it be."

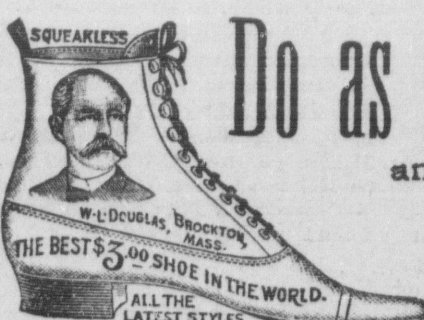

John Waskom's son, who has been attending the public school, has been in a very serious condition for the past week with bowel trouble. Sunday he was operated on by Dr. Freeland, of Bedford assisted by Dr. Yost, of Valonia, and Dr. M. V. Wilson, of Medora. Monday the young man was resting fairly well and his case was thought to be very hopeful.

Some of the republicans from Brownstown that have visited our town in the interest of the ring ticket were not well trained to work in democratic harness. One of them told some of our people that all of the republicans of Brownstown except two, were going to vote the straight democratic ticket. Our friend said to the Brownstown man "you should not tell that," his answer was—"they all understand it that way". Another prominent republican working in the interest of the ring ticket by talking for Keach, said to a democrat of our town—"all the republicans of Brownstown will vote for Keach" the democrat said "you republicans in Brownstown township vote for Keach and Durment will be left." The republican replied, "Oh you know we are working a scheme but we are keeping it a secret yet."

Some of the leading Democrats here have been offering to swap votes in the interest of Brownstown's only begotten son, John Burrell, and from the way they talk and look I am forced to conclude that they believe that all that do not believe on, and vote for the said John ought to be disfranchised. But the tax payers have had enough of Jno. Burrell.

REEFORT, New Zealand, Nov. 23, '96
I am very pleased to state that since I took the agency of Chamberlain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value from the use of it in my own household. It is so pleasant to take that we have to place the bottle beyond the reach of the children.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

Oscar Montgomery at Volga.

Hon. Oscar H. Montgomery, of Seymour, addressed a splendid audience at Volga, in Smyrna township, last night on the political issues of the day, and will speak tonight at North Madison. Mr. Montgomery's Volga speech can be summed up in a few words. It was an unanswerable argument in favor of the republican policy of protection to American capital and labor, in favor of the republican policy to maintain the financial honor and credit of the government, and of the republican policy of sustaining the administration of President McKinley in his masterly management of the in eternal as well as the external affairs of the nation. In addition to being unanswerable in its arguments, the speech was oratorically graceful beyond four powers of description. Mr. Montgomery was frequently applauded by the delighted audience. The republicans of Smyrna were greatly cheered by the speech and the accumulating evidence that their cause is prospering throughout the state and nation—Madison Courier.

Death of Miss Ulark.

Another death from that fatal destroyer, consumption, in the person of Miss Ruby Frank Clark, daughter of Mr. and Mrs. George S. Clark, who passed to a better world at 3 o'clock Wednesday morning, Nov. 2, 1898, in the twentieth year of her age. Deceased was born in Seymour, May 17, 1879. She was one of Seymour's most intelligent and dutiful young ladies. Less than one year ago the bid was fair for long life as any young lady in the city. Not six months elapsed till the imprint was plainly visible on her face. Time wore on till she complained and she grew slowly weaker. For some time she had been riding out in a buggy as she was last evening in apparently as good health as for some time past. Miss Ruby Frank Clark was a consistent member of the First Baptist Church since childhood. The grief stricken parents have sincere sympathy of their many friends. The funeral will take place at 2 o'clock Friday afternoon.

THRONE THRONED.
The brain is the throne of the body. It does not control, there's insanity. Weak nerves threaten this throne. Nervousness, sleeplessness, headache, loss of appetite, melancholy, faint and dizzy spells, neuralgia, all show weak nerves. These troubles come from too great pressure of poor blood on nerve centers. Electric Bitters cures them by equalizing the circulation of the blood, which it makes pure, rich and life-giving. It stimulates stomach, liver and kidneys and expels poisonous humors. Electric Bitters are a priceless boon to a vast army of men and women with weak nerves, stomachs and kidneys, lazy livers and sluggish bowels. Only 50 cents. Sold by Wm. F. Peter, Druggist.

Glorious News.
Comes from Dr. D. B. Cargile, of Washington, Ind. He writes: "Four bottles of Electric Bitters have cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face and the best doctors could give no help but her cure is complete and her health is excellent." This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Price 50 cents. Sold by Wm. F. Peter, Druggist.

Speed & Co. of Louisville, and located at Utica, six miles north of Jeffersonville.

As guardian of his son, Rev. Mr. Tyler, Moses Tyler had control of \$10,000 in bonds belonging to his son, which money was left by his mother. In addition Moses Tyler had from \$15,000 to \$20,000 of his own money. When Rev. Mr. Tyler qualified as administrator he was unable to find a will or any trace of the money. Gold Dust—Gold Dust everywhere! But no Battle Ax to chew!
One of the most convincing proofs of the really GENUINE excellence of **BattleAx PLUG** is the unwillingness of those who have chewed it to chew anything else—even if Battle Ax is not obtainable for a time. They do not want any other kind. When all is said and done, the fact remains that Battle Ax is so good—so thoroughly good and satisfying, that nothing else can take its place.
Remember the name when you buy again.
